Coup d'Etat

Coup D'etat is the hottest restaurant in Uptown Minneapolis. The two story volume not only feels grand and exciting, it exudes an energetic vibe that the latest food revolution in Minneapolis is becoming more and more known for. A huge central cocktail bar, open display kitchen, upper mezzanine level complete with lounge seating and its own bar, outdoor seating on two levels and dramatic private dining area make this destination spot a place you want to return to. Historic large scaled chandeliers grace feature areas and are the jewelry in the space. Rich tufted leather seating, corara marble table tops, a raw steel and glass framed liquor storage room, and a custom mirrored candle wall create the rich design layers that make Coup D'etat come alive.

Like the food, design elements combine modern and classic undertones to create an experience that is one of a kind.
